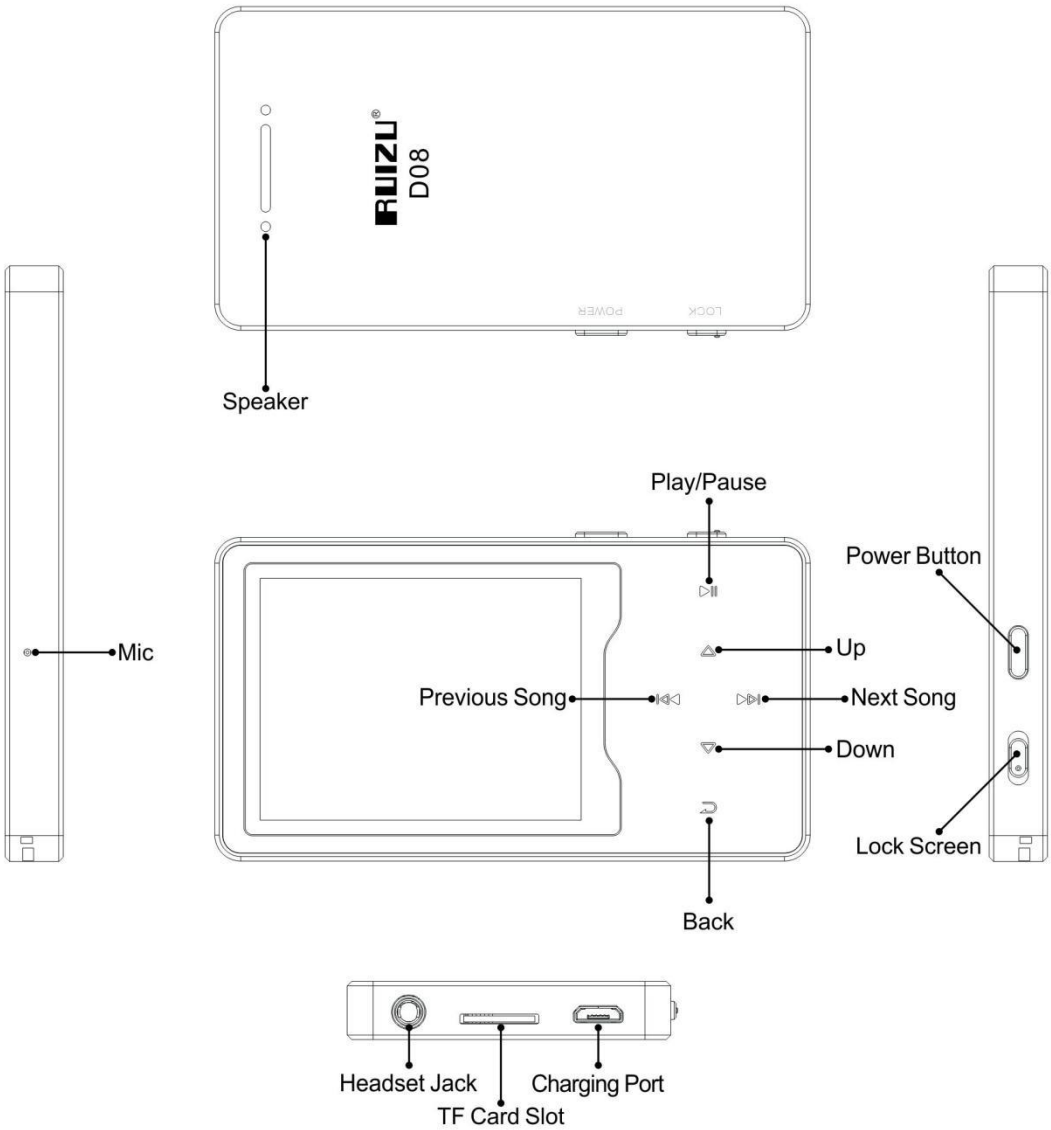
Quick Guide

While the player is powered on, touch direction buttons to access to its 9 different functions, including Music, Video, FM Radio, Recorder, Ebook, Photo, Tools, Setting, Folder. Touch ⋈ button to enter.

Plug your earphone into the jack to enjoy the music and radio you like.

Note: The player will into sleep mode automatically without operation within 1 minute. Hold the power button for 3 seconds to wake it up.

Basic Operations



1.Charge the Player

1. Plug the attached USB cable into the USB port of a computer to charge the player. When you start charging, it will show two options: “Charge & Transfer” and “Charge & Play”. An indicate on the top right will show the charging statue.
2. Use only the 5V/500mA charger for charging or it may lead to product failure.

2.Power On/Off

Hold the Power button 3 seconds on the right to turn on/off the player.

3.Date Transfer

Plug it into your computer and copy over media files with the attached USB cable as if it were a flash driver or use music management software such as Windows Media Player to transfer the files.

Note: if your computer cannot detect the MP3 Player, try to update your USB driver or use another cable.

If it still can’t work for you. Ask RUIZU Customer Service for additional help (See Cover)

4.Lock Screen

Use the switch on the top to lock the screen. Repeat to unlock.

Note: Lock Screen will make buttons not working. If you accidentally locked your screen , just use the switch to unlock.

5.Return

While on playing interface, touch the button ⮌ to exit.

6.Volume Adjustment

While on playing interface, touch ▲ / ▼ to adjust sound volume.

Note: There’s a built-in speaker in RUIZU D05 MP3 Player, the speaker will turn on automatically when no earphones are plugged in.

Music

Touch ⏯ button with “Music” on main interface to access to its function. A music list will show up, pick up a music to play. RUIZU D08 Music Player supports MP3, WMA, APE, WAV, FLAC format audio files.

1.Rewind/Forward

While it’s on music playing interface, touch button ⏮ / ⏭ to go to the previous/next song.

Hold button ⏮ / ⏭ for fast rewind/ forward.

5.4 Speaker:

Turn on/off the speaker.

5.5 Format Internal Memory:

Format system memory

5.6 Reset Default Settings:

Reset system to factory setting.

Folder

Touch ⋈ button with “Folder”on main interface to access to its function.

All the files and folders in the player will be listed. If the micro SD card is inserted, you can choose to go to "Local folder" or "Card folder".

Note: Create your own folders to sort your song.

For Audio book lover:

Almost all mp3 players are based on flash driver, which have different format from PC’s hardware disk. Different format causes different sorting algorithm for file name, which is a big trouble to customer who need audios, such as audio book, play in certain order.

To solve this issue, the easiest trick is to sort files by edit time. Here’s the instruction about how to do that.

1, Prepare the audio files and sort them on PC.

2, Select all files and do not copy (Important).

3, Move your mouse cursor to the first file, then copy.

4, Paste files to mp3.

5, Unplug mp3 and go to “Folder” to find your audio files.

Your audio files should be in correct order, the first file be pasted is the first file be edited. And you can also create folders to help you sort your audio books.

Support and Troubleshooting

Q: How to transfer music to the mp3 player?

A: Download music to your computer first, and then connect mp3 player with your computer thru charging cable. A new disk will pop on as flash driver, and drop all your musics to the disk.

You can create folders in the disk to sort your music.

Q: Why my computer can’t detect mp3 player?

A: RUIZU Mp3 player can be paired for all computer system with latest USB driver. Please update your USB driver before plug in Mp3 player or try another charging cable. It you still can’t connect RUIZU Mp3 Player to you computer, please contact RUIZU customer service team for additional help(See Cover).

Q: How can I continue audio play after turn the player off?

A: You can not continue your play after turn off the player. However, if the player is in sleep mode, you

can continue your play by wake it up. See “Basic Operations” about how to get into sleep mode.

Q: Why buttons on the player can’t work?

A: Sometime customer will accidentally active lock screen function which prevent button been used. Please see”Lock Screen” to unlock the button. If it still won’t work for you, please contact RUIZU Customer Service to claim your warranty. See Cove
