Support and Troubleshooting

Q: How to transfer music to the mp3 player?

A: Download music to your computer first, and then connect mp3 player with your computer thru charging cable. A new disk will pop on as flash driver, and drop all your musics to the disk.

You can create folders in the disk to sort your music.

Q: Why my computer can’t detect mp3 player?

A: RUIZU Mp3 player can be paired for all computer system with latest USB driver. Please update your USB driver before plug in Mp3 player or try another charging cable. It you still can’t connect RUIZU Mp3 Player to you computer, please contact RUIZU customer service team for additional help(See Cover).

Q: How can I continue audio play after turn the player off?

A: You can not continue your play after turn off the player. However, if the player is in sleep mode, you can continue your play by wake it up. See “Basic Operations” about how to get into sleep mode.
